Public Health Staff:

Medical Officer of Health:

A. ELSWORTH, M.B., B.S., D.P.H.

Chief Public Health Inspector: J. FALL, M.A.P.H.I.

Senior Additional Public Health Inspector: P. J. JEMMESON, M.A.P.H.I.

Additional Public Health Inspector: F. BURN, M.A.P.H.I.

Rodent Officer: J. L. BRIDDOCK

Clerk: F. GRAINGE

ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH

To the Chairman and Members of the Council.

Mr. Chairman, Ladies and Gentlemen,

I wish to present my Annual Report for the year ending 31st December, 1965.

There is nothing in the statistics in the first part of the report to which special attention need be drawn. As I explained in my last year's report, it is not possible to draw any firm conclusions from statistics based on a fairly small population such as that of the Rural District.

The Chief Public Health Inspector deals with the year's progress in matters of environmental health such as sewerage schemes, housing improvement and slum clearance, in his report.

It was necessary during the year to serve a notice on a farmer under the Milk and Dairies Regulations requiring him to pasteurise his milk because it was infected with Brucellosis and he was selling it in a raw, unpasteurised state.

There was also a case in which I would have wished to serve such a notice on another farmer in order to protect the public's health. Unfortunately, the legislation in this matter is so unsatisfactory and the advice given by the Ministry of Health is so obscure that I could take no action.

The extent to which the legislation is unsatisfactory is illustrated by the fact that the Medical Officers of Health of two nearby County Boroughs were able, perfectly legally and very justifiably, to serve notices requiring pasteurisation of this same farmer's milk in their own areas while I, the Medical Officer of Health of the area in which the milk was actually produced, having available to me exactly the same evidence as that on which my two colleagues acted, could take no action.

Brucellosis is primarily a disease of cattle. It causes abortion in cattle, low fertility and low milk yield. The loss of money in the farming industry from this cause must be immense.

However, it also affects man. The disease in man is very difficult to diagnose, and therefore, no exact figures for the number of human cases can be given. Estimates vary widely between 200 and 3,000 cases per year. Although the human disease is not often fatal, it often gives rise to many months of ill-health and severe pain. In some cases it is crippling.

The disease could be eradicated from cattle by a scheme very similar to that which has almost eradicated tuberculosis from cattle. As far as I know, the only obstacle to the adoption of such a scheme is the apparent inability of the Government to provide the necessary money.

I would like to express my thanks to Mr. Fall, Mr. Jemmeson, Mr. Burn and Mrs. Grainge of the Health Department, the other Officers and the Members of the Council for their help and co-operation during the year.

I am, Mr. Chairman, Ladies and Gentlemen,

Your Obedient Servant,

A. ELSWORTH,

Medical Officer of Health.

SECTION A

Statistical and General Conditions of the Area

Area (in acres)	88,940
Registrar-General's Estimate of Resident Population mid-1965					30,570
Average population appropriate to the calculation of death rates					30,570

Illegitimate Infants per 1,000 illegitimate live births					—
Death Rate of Infants under 4 weeks of age						
All Infants per 1,000 live births				9.7
Legitimate Infants per 1,000 legitimate live births					10.03
Illegitimate Infants per 1,000 illegitimate live births					—
Death Rate of Infants under one week per 1,000 total live births					8.09
Still births and deaths under one week per 1,000 total live and still births						28.7

General Provisions of Health Services for the Area

(a) LABORATORY FACILITIES:

During the year the Council made use of the arrangements offered by the Public Health Laboratory at the General Hospital, Middlesbrough, in respect of investigation of pathological specimens.

(b) AMBULANCE COVERAGE FOR STOKESLEY & STOKESLEY AREA:

Covered by N.R.C.C. Ambulance—stationed at THORNABY:

Stainton, Maltby, Hilton, Yarm, Crathorne, Low and High Worsall, Hutton Rudby (if the case is to be admitted to Stockton and Thornaby Hospital).

Covered by N.R.C.C. Ambulance—stationed at GUISBOROUGH:

Great Ayton, Stokesley, Great Broughton, Kirby, Easby, Ingleby Greenhow, Seamer, Bilsdale, Kildale, Marton, Nunthorpe, Ormesby, Hutton Rudby (if the case is to be admitted to Middlesbrough Hospital or Poole Hospital).

Covered by N.R.C.C. Ambulance—stationed at NORTHALLERTON:

Ingleby Arncliffe, Ingleby Cross, Swainby, Rounton, Sexhow, Picton.

(c) NURSING IN THE HOME:

The day to day administration of the Home Nursing, Health Visiting and Domiciliary Midwifery Service is dealt with by the Local Health Sub-Committee.

The following Nurses undertake Home Nursing and Midwifery duties:—

Nurse Elsip—Great Ayton and District (assisted by Nurse Dolby).

Nurse Robinson—Hutton Rudby and Whorlton.

Nurses Nicklin, Aydon and Whigham—Nunthorpe, Ormesby and Marton.

Nurses Crossan and Harrison—Stokesley and District.

Nurse Miles—Yarm and District.

HEALTH VISITING:

Nurses Welch and McPartland are Health Visitors in the Nunthorpe, Ormesby and Marton areas, Nurse Pilling in Stokesley and Great Ayton area, Nurse Robinson in Hutton Rudby and Whorlton and Nurse Miles in Yarm and district.

TREATMENT CENTRES AND CLINICS:

The North Riding County Council and Infant Welfare Clinics in the Rural District are held as follows:—

INFANT WELFARE CLINICS:

Great Ayton	1st and 3rd Thursday in each month.
Hutton Rudby	3rd Tuesday in each month.
Marton	Monday weekly.
Nunthorpe	Wednesday weekly.
Ormesby	Thursday weekly.
Rounton	2nd Tuesday in each month.
Stokesley	1st and 3rd Friday in each month.
Yarm	1st Wednesday monthly.

CHIROPODY CLINICS:

Stokesley	Town Hall, Tuesday weekly 1-30 p.m.
Ormesby	Church Hall, Tuesday morning weekly 1-30 p.m.
Great Ayton	Ambulance Room, Linden Road, Thursday weekly 5 p.m. (by appointment).
Nunthorpe	Community Room, Nunthorpe, Thursday weekly 2 p.m. (by appointment).

INFANT MORTALITY:

Breakdown of this year's Infant Mortality figures:—

Deaths of infants over four weeks and under 1 year:

Hydrocephalus	1
Misadventure	1
Broncho Pneumonia	1

Deaths of infants under 4 weeks:

Congenital Defect	1
Intracranial haemorrhage	1
Prematurity	2
Congenital Heart Disease	2

Births, Deaths and Infant Mortality Rates from 1940:

	Births	Deaths	Infant Mortality
1940	14.54	13.12	25.21
1941	14.69	13.87	97.46
1942	20.4	12.6	77.9
1943	17.0	12.2	38.2
1944	19.3	11.5	38.8

ANNUAL REPORT OF THE CHIEF PUBLIC HEALTH INSPECTOR

To the Chairman and Members of the Council,

I have pleasure in presenting the Annual Report on Environmental Hygiene in your area for the year ending 31st December, 1965.

There are three matters of particular interest viz.,

HOUSING IMPROVEMENT:

Steady progress has been maintained in improving dwelling houses structurally and providing modern amenities in others. As new sewerage systems are completed we hope many more owners will carry out improvement schemes but I am sure that in the near future it will be necessary to enforce W.C. conversions in certain cases.

MEAT INSPECTION:

The proposed new abbatoir at Marton will require a "Resident Inspector" during all hours of slaughter but in spite of this, I shall be pleased when it comes into operation for this type of building with its modern equipment is a necessity when dealing with the number of animals killed at Marton. The fact that the premises will cater for a much larger throughput and the owners intend to discontinue slaughtering at Middlesbrough is merely a business arrangement to concentrate their trade requirements into one adequate modern and hygienic building with economic advantage.

REFUSE COLLECTION AND DISPOSAL:

Considering the problems of collection, particularly the difficulty in obtaining suitable staff, I feel that a satisfactory service was given in 1965.

Disposal of refuse however, is still a worrying matter. In my opinion, it is virtually impossible for most authorities to maintain properly controlled tips unless crude refuse is pre-treated.

I wish to express my gratitude to the Council for their support during the year.

I am, Mr. Chairman, Ladies and Gentlemen,

Your Obedient Servant,

J. FALL,

Chief Public Health Inspector.

Sanitary Circumstances of the Area

1. (i) WATER:

The Council's water schemes collect water in four areas in the hills in the southern area of the district.

These are spring supply of exceptionally good quality. Due to the acidity and lack of carbonate hardness however, precautions are taken at treatment plants on each scheme to reduce the corrosive action on metals.

Kildale village is supplied by local springs, collected, treated and distributed by the Council.

Water collected from Turkey Nab is stored at a reservoir at Ingleby Greenhow and coupled to a second reservoir at Carlton. This system also takes the supply from Mere Beck springs, Faceby.

Water collected from three sets of springs feed a reservoir at Harfo Bank, known as Scugdale supply.

There is a controlled link to these two supplies between Potto village and Potto Hall and either one, or both, can feed a high level water tower (50,000 gallon capacity) at Campion Lane, Hutton Rudby, and in an effort to maintain the level in this tower, the Council's mains are connected to those of Northallerton and District Water Board.

The scheme to augment supplies to Castleavington, Kirkleavington, Low and High Worsall, by taking a bulk supply from Tees Valley Water Board main at High Leven was completed during the year.

The scheme to provide a new service reservoir at Ober Lane, Hutton Rudby (adjacent to the high level water tower) and supply this from Tees Valley Water Board mains, was commenced.

DRAINAGE AND SEWERAGE:

Sewage Disposal Works are in operation in Parishes as detailed below:—

POSITION OF WORKS			AREA SERVED
Great Ayton	Parish of Great Ayton
Great Busby	Village of Great Busby
Kirkleavington	Village of Kirkleavington
Stokesley	Town of Stokesley
Maltby	Stainton and Maltby
Low Worsall	Village of Low Worsall
Great Broughton		Great Broughton and Kirby
Carlton	Carlton Village
Ingleby Arncliffe		Ingleby Arncliffe and Ingleby Cross
Yarm	Yarm Town, Thirsk Road and Worsall Road areas
Picton	Picton Village
Newby	Newby Village
Gribdale, Great Ayton		Gribdale Terrace

KIRKLEAVINGTON

Phase 1 was completed during the year and phase 2 is awaiting final approval.

NUNTHORPE VILLAGE AND POOLE HOSPITAL

Sewers were completed and house connections progressed during the year. Work on ejector stations was commenced.

HUTTON RUDBY

Works in progress.

SWAINBY

Works in progress.

POTTO

Sewers completed mid-1965—pumping station completed late in the year—awaiting electricity supply.

FACEBY

Scheme submitted and approved in principle.

GREAT AYTON EXTENSION

Awaiting Ministry approval.

HILTON

Scheme approved but delayed for six months due to the National economic position.

SEAMER

Nearing completion.

EAST ROUNTON

Scheme being considered by Council's Engineer.

INGLEBY GREENHOW

Approved by Council—awaiting Ministry approval.

TAME BRIDGE AREA, STOKESLEY

Scheme being prepared by Council's Engineer.

PRIVY CONVERSIONS:

The Council continued to pay grants of up to £10 towards the cost of conversion to W.C. and received 31 applications during the year.

Parish	No.
Swainby	7
Great Ayton	1
Low Worsall	1
Great Broughton	12
Stokesley	2
Newby	1
Seamer	7
Total	31

PUBLIC CLEANSING

The Council continue to undertake the collection and disposal of household refuse and normally maintained a weekly collection from all dwelling houses except those in remote isolated positions, particularly farm houses. Several of these are collected fortnightly or "on request".

For this collection, during 1965, four vehicles were operated (a fifth held in reserve) and a staff of 22 men employed. Two of these were appointed specifically as replacements for absentees, on holiday or ill.

Although the staff were able to give a satisfactory service in spite of the increase in dwelling houses, the amount of overtime required is now excessive and the Council agreed that a fifth vehicle and crew must be brought into service early in 1966.

DISPOSAL

The quarry at Rye Hill, Great Ayton, was used as a refuse tip during the year and every effort was made with the available labour and equipment to prevent any nuisance.

However, even with a full-time attendant and Bristol tractor, considerable difficulty was experienced in trying to control this tip, particularly with regard to fire.

During the year the Council leased a quarry at Aireyhome, Great Ayton, which will be used in conjunction with Rye Hill tip at some future date.

SPECIAL COLLECTIONS OF REFUSE

Special collections of refuse from shops (at the trader's request) were continued and a charge of 9d. per bin (or equivalent) is made.

SANITARY INSPECTIONS OF THE AREA

SUMMARY OF INSPECTIONS:

Complaints, including re-visits	25
Housing Act, including re-visits	297
Infectious Diseases, including re-visits	53
Disinfestations	5

Tuberculosis only:						
Whole carcasses condemned	—	—	—	—	—	—
Carcasses of which some part or organ was condemned	—	—	—	—	71	—
Percentage of the number affected	—	—	—	—	1.26	—
Cysticercosis:						
Whole Carcasses	—	—	—	—	—	—
Cysticercosis:						
Carcasses of which some part or organ was affected	5	—	—	—	—	—
Carcasses submitted for treatment	—	—	—	—	—	—

SLAUGHTERHOUSES:

The Council continue to lease six slaughterhouses (one at each of the following villages)—Stokesley, Great Ayton, Marton, Ingleby Greenhow, Hutton Rudby and Ingleby Arncliffe, and operate them as public slaughterhouses.

MARTON SLAUGHTERHOUSE:

Plans to modernise and extend these premises were approved during the year and good progress was made on the new lairage, sheep and pig slaughterhall, hanging space and offices.

The proposals include the adaptation of most of the existing buildings to form a cattle slaughterhall and chilled hanging space, but this work will not be done until the new buildings are completed. Modern equipment is being fitted and it is expected that a “line system” of slaughtering sheep and pigs will be adopted.

MEAT INSPECTION:

The number of animals slaughtered during the year increased by approximately 2,500 compared with the 1964 figure: 100% meat inspection was maintained and over six tons of meat and offal was found unfit for human consumption.

The inspectors continued to meet the essential requirements of the individual butchers by working outside normal working hours and, particularly on Bank Holidays, and I am pleased to report that we received consideration and full co-operation from the Trade throughout 1965.

Fees for inspection continued at the rate of 2/6d. per head for cattle, 9d. for pigs and calves and 6d. for sheep, and the Inspectors collected approximately £1,300 during the year.

The number of animals slaughtered and inspected in the slaughterhouses since 1964 are as follows:

		Cattle	Calves	Sheep	Pigs	Total
1954 (six months)	1354	259	4555	1625	7793
1955	2788	236	7887	2930	13841
1956	3312	213	9626	2416	15567
1957	3744	227	9898	3011	16880
1958	3934	146	11702	3347	19129
1959	3585	139	15561	3473	22758
1960	3968	182	14594	3825	22569
1961	4426	139	16756	3840	25161
1962	4835	111	16453	4203	25602
1963	5023	99	15112	4452	24686
1964	4681	104	15780	4885	25450
1965	4714	97	17561	5605	27977

BOVINE TUBERCULOSIS:

As Stokesley Rural area is within a Tuberculosis eradication area, it is interesting to continue the table showing the annual percentage of cattle carcasses found to be affected:—

			Average percentage affected	
			Steers & Heifers	Cows
1955-1959	1.86%	8.9%
1960698%	.63%
196150%	0
19620%	0.17%
1963044%	.708%
1964	0%	0%
1965	0%	0%

OTHER FOODS:

Routine inspections were carried out during the year.

FOOD AND DRUGS ACT, 1955, SECTION 16:

During the year, four licences were issued to retail ice cream. The premises were inspected and the condition of the licence was that the ice cream be prepared and sold from an approved refrigerator.

LICENSED PREMISES:

There are 57 licensed premises in the area, most of them completely satisfactory, with washing facilities and the necessary sanitary accommodation for both tenants and visitors. When sewerage schemes are completed, every effort will be made to ensure that all licensed premises are brought up to standard.
